

TRAVEL INSURANCE

BEFORE YOU TAKE OFF... TALK TO US!!!!

Having us look at your travel insurance needs before you go on that trip, is as important as seeing a doctor.

Many group insurance plans do not adequately cover the traveler in the event of a catastrophic event such as a heart attack.

According to a recent poll, 37% of Canadians don't buy travel insurance when they leave the country. A STARTLING NUMBER CONSIDERING WHAT COULD HAPPEN IF YOU ARE INJURED OR SICK WHILE ABROAD!!!

For younger travelers, securing inexpensive travel insurance is as easy as booking a ticket on the web.

For older travelers, travel insurance can be costly and should be considered in a retirement plan. This is especially true for snowbirds. The longer you are away, the bigger the risks, of course.

Remember, buying insurance isn't just for those crossing the border. Canadians visiting another province need protection as well. Every province covers different things. For example, the cost of an ambulance may be covered in Ontario, but not somewhere else.

We can also provide coverage for anyone visiting Canada! Consider including coverage for trip cancellation and lost baggage due to the volatility in some destinations.
